This is a sample

ParentGlow's own export code made this pack from a made-up family's records, on a test system that holds no real data. It is not a real record and is not evidence.

The sample markings were added afterwards. Everything else is exactly as the export printed it.

Refused and Disputed Expenses

Winter coat (Liam) — 20/02/2026 — £36.00 — Uniform & Clothing

Status: **Refused**

Refusal reason: We agreed his coat would come from the school's second-hand uniform sale next week, so I'd rather not split a new one.

Gymnastics competition entry (Sophie) — 24/02/2026 — £25.00 — Activities & Sport

Status: **Under discussion**

Notes: Regional competition in May. Can we check the date works for both homes first?

Professional Access

Every time a professional granted access by a parent viewed or downloaded part of this family's record, the event was appended to a tamper-evident chain. The events in this period are listed below.

No professional access in this period.

About These Records

This bundle is a complete cross-domain record for the period 01/02/2026 to 28/02/2026: 8 expense entries, 10 calendar events, 1 schedule-change request, and 4 handover notes, and 4 handover message/checklist dates. Nothing within this period has been omitted.

Every record in this bundle is held in ParentGlow under an append-only activity log, each entry stamped with a server-applied time and chained by a tamper-evident hash, so the record of what was logged and when cannot be altered after the fact. This bundle was assembled from those records for the period shown.

Document reference. The reference on the cover of this pack was derived from the individual records reproduced inside it. A pack whose contents have been altered would not produce the same reference.

This document is a factual export of those records. It may be exhibited to a witness statement; the person making that statement is responsible for verifying its contents under a statement of truth (Family Procedure Rules, Practice Direction 17A).

Disclaimer

This bundle was generated by ParentGlow on 02/03/2026 09:15 (UK time). It is a faithful export of the records held in the requesting parent's ParentGlow account for the period shown. ParentGlow does not certify, endorse, or vouch for the contents; the weight to be given to this document is a matter for the court.
